Summary

Credit Score Class

Incidence of Delinquent Payment

Among Companies with This Class	53.10%
Average Compared to All Businesses	10.20%
Credit Score Percentile	4
Credit Score	285
Number of Payment Experiences	14

Key Factors

- Recent amount past due
- Proportion of slow payment experiences to total number of payment experiences reported
- Vendor payment commentary
- Payment information indicates negative payment comments
- Trend in payment of accounts
- Limited time in business.

Notes:

- The Credit Score Class indicates that this firm shares some of the same business and payment characteristics of other companies with this classification. It does not mean the firm will necessarily experience delinquency.
- The Incidence of Delinquent Payment is the percentage of companies with this classification that were reported 91 days past due or more by creditors. The calculation of this value is based on an inquiry weighted sample.
- The Percentile ranks this firm relative to other businesses. For example, a firm in the 80th percentile has a lower risk of paying in a severely delinquent manner than 79% of all scorable companies in D&B's files.
- The Credit Score offers a more precise measure of the level of risk than the Class and Percentile. It is especially helpful to customers using a scorecard approach to determining overall business performance.

Credit Score Percentile Norms Comparison

- Higher risk than other companies in the same region.
- Higher risk than other companies in the same industry.
- Higher risk than other companies in the same employee size range.
- Higher risk than other companies with a comparable number of years in business.

Financial Stress Score

Failure per 10K	84/10,000
Average Failure Rate within D&B database	0.48%
Failure per 10K	48/10,000
Number of Payment Experiences	14

Key Factors

- Composite credit appraisal is rated limited.
- Financial ratios indicate higher risk.
- High proportion of slow payment experiences to total number of payment experiences.
- Low proportion of satisfactory payment experiences to total payment experiences.
- UCC Filings reported.
- Unstable Paydex over last 12 months.

Notes:

- The Financial Stress Class indicates that this firm shares some of the same business and financial characteristics of other companies with this classification. It does not mean the firm will necessarily experience financial stress.
- The probability of failure shows the percentage of firms in a given percentile that discontinue operations with loss to creditors. The average probability of failure is based on businesses in D&B's database and is provided for comparative purposes.
- The Financial Stress National Percentile reflects the relative ranking of a company among all scorable companies in D&B's file.
- The Financial Stress Score offers a more precise measure of the level of risk than the Class and Percentile. It is especially helpful to customers using a scorecard approach to determining overall business performance.

Financial Stress Percentile Comparison
