Accelerate the Path from Prospect to  
Profitable Relationship

dun & bradstreet

## Selling in the fast lane

Did you know that on average a buyer receives 20 sales calls? Per week, of course. But how do you stand out from this mass? We will tell you: With timing and relevance - and with D&B Hoovers.

## Sales acceleration drives growth

Sales acceleration requires alignment between sales and marketing teams to fast-track the buyer's journey, cross-sell and upsell existing accounts, and build strong customer relationships.

In order to do this effectively, organizations need to:

1. Target with intelligence
2. Shorten and simplify the buyer's journey
3. Engage in a relevant and compelling manner

When your sellers have access to a unified view of intelligence provided on the prospect, the overall market, and their competition, the conversations they have will be more relevant and impactful.

Unfortunately, after surveying hundreds of B2B marketing professionals, we found that nearly 40% don't feel their sales teams have the right account intelligence to engage with prospects and leads in a meaningful way. D&B Hoovers can help close that gap and accelerate the path from prospect to a profitable relationship through the effective use of data and analytics.

## Identify the best opportunities

D&B Hoovers uses the world's largest commercial database and sophisticated analytics to deliver a sales acceleration solution packed with insight. It enables B2B sales and marketing professionals to accelerate sales, enhance go-to market activity, and increase business growth globally. D&B Hoovers leverages the best company intelligence and innovative analytical features to provide optimal coverage with deep insight.

With its intuitive user experience, the solution helps you:

- Quickly build pipeline by targeting more intelligently with dynamic search capabilities and comprehensive list-building options
